# UNION MEETING

ANDREW MILLER.

JOHN R. BUCKBEE WILL ADDRESS THE SATURDAY Evening, November 5th, 1864, at Bidwell's Hall.

#### ANOTHER ABOLITION LIF.

Since our last issue, one of Abe's Peace Commissioners has reduced the strength of our Southern brothers some seven or eight thousand in the Shenandoah Valley, taken about fifty cannon, and thus intensified the feelings of our brothers aforesaid.

It is now about time to hear of Grant doing something to keep the balance equal with little Phil. Sheridan. But, then, if Grant was to take Richmond, it would be nothing but an "Abolition lie," sent on to influence the California elecdefeat that pink of modern conservatism. McClellan, whose heart is so pure for Union, and so full of strategic thoughts of statesmanship as to the best mode of making a flank movement on Washington, that he and his friends denounce Union victories as a weak invention of the enemy.

Nevertheless, the American people propose to "move upon his works at once," and to fight it out on the "present line" this summer, and are not even troubled about the means of transportation McClellan proposes to use to carry his defeated forces up Salt River on the 8th of next month.

Vermont started off on the march then followed Maine; then Ohio, Indiana and Pennsylvania, and if there is one loyal State that so far forgets its national pride and honor as to throw its vote for McClellan on the day of election. we propose that Jeff. Davis be banished to that State, and that McClellan be made Prime Minister, and Auguste Belmont Grand Treasurer. We again caution our Copperhead leaders not to read even the "Express" for the eusuing ten days, as its news by telegraph from the East is only concected in the grand labratory of falsehood known as "military censorship," and is not even diluted in the columns of that consistent sheet and as a last caution, we beg them not to believe that the "Abolitionists have got the country," until they follow the last remains of the Democratic party to its final resting place.

WE ACCEPT THE OWEN .- On the 31st day of August, two days after the meeting of the Chicago Buzzard-Roost, the Richmond Examiner said :

"If Atlanta were to fall, or Petersburg, or if Sheridan were to drive Early back to Lynchburg, or if any one of these events should befall, then all the peace principles and peace Presidents of Chicago would be at the election next November where last year's snow is, and last night's moonshine".

Well. Atlanta has fallen. Sheridan has driven Early and beaten him out of his boots. "Pap" Price has had the conceit taken out of him, and Mobile is at the mercy of Farragut, and we believe that taking all these "events" as having "befallen," that the hypocritical Pecksniffs at Chicago stand no more show than the Examiner thinks they do. Bully for "last year's snow, and bully for last night's moonshine." Their candidate is as cold as "snow" and as impassive as "moonshine," while the platform is of as little account as a last year's bird's nest, or a four-year old almanac.

SHERIDAN'S victory over Early, in the Shenasdoah Valley, was a decisive one. tinct, but of the price of Place Commissioner. is obeyed.

The Election Law of this State, as it now stands, should be thoroughly understood by every person who acts either as Judge or Inspector of an Election Board. The law itself is published in

almost every paper published in the State, and is also published in the posters distributed throughout the county, containing the order of election. It will be found on the outside of this issue, and to those who have no access to the statutes of 1863-4, we suggest that they preserve a copy of this number of the Quincy Union, for reference on the day of election.

Under the old law, if a vote was challenged, the person offering to vote could nevertheless swear it in. Now, if any person offers to vote of whose right any person is doubtful, he may be sworn to auswer questions. The form of that eath is laid dewn in Art. 2136, Sec. 28 of the Act, and the following questions may be propounded to the person so challenged and sworn:

"Where do you reside now? How long have you resided in this State and county? Where was your last place of residence? Are you a native born or an adopted citizen? If an adopted citi zen in what Court were you naturalized.'

The foregoing questions are those contemplated by statute, but it also de clares that other questions may be ask ed, which will tend to test his right to vote, and the following may be of service in reaching almost every case, when asked in addition to those above,-especially in those cases where persons have been absent from this State for a

"When you left this State, did you leave with the intention of returning? During your absence have you voted at any election outside of this State?"and if any person has exercised the right of suffrage out of the State, he ought not to be entitled to a vote in this State until he has gained that right by a six months residence.

The recent opinion of the Attorney General of this State in an able exposition of the rights of the citizen, and his deduction from the law of Congress, the Federal and State Constitutions, and the statutes of this State cover the whole ground. It is published in full in the Sacramento Daily Union, of date Oct. 18th, and the Weekly Union of Oct. 22d; also in the American Flag of date Oct. 20th, and should be read and under- perate measures, and the Copperheads stood by every person, more particularly by those who are called upon to act as officers of election, and we append such extracts from his opinion as cover the pith of his opinion, the whole argument being to long for our columns -Says he:

First-Substantially, your first two ruestions amount to this : "When does he six months residence prescribed in Section 1 of Article 2 of the Constitution begin -at the time the citizen leaves another State with the intention of becoming a resident for the first time of this State or at the time of his actual not the courage to inaugurate a war arrival within our limits with such in- without a just cause. The leaders may tentions?" I have not the least doubt that the latter is the point of time from file have not. Many of them have not which the six months are to be compu- the disposition, and in case of a conflict

In fact, this opinion has generally be come a fixed law, by custom, and the old practice which grew up under the opinion given by Mr. Hastings, that a residence begun in California, when a person left any other of the States to come here, is not adhered to by any respectable number of attorneys; and, as a consequence, any person who may have crossed the plains this summer, is not entitled to vote at this election, who did not actually reach our State six

months prior to election day. But it is argued that any American citizen has a right to vote for President. This is not so, for the vote can only be polled by virtue of State law, and if a person is not a citizen of the State of California, he cannot exercise that right, for he can only reach the privilege through a possession of the double privilege of United States and California citizenship. Upon this point the Attorney General in answer to the following question,-"Your second question is whether the party must have the above six months residence in this State in order to vote for Presidential Electors." says, after showing that the manner of choosing electors is left to each State. and quoting how our State has acted in the premises by legislative enactment. that "by the above quoted sections of the Act of 1852, an elector of Presidential Electors must be a "qualified voter' of this State, and in order to be such the party must have the six months resi ence as above defined in reply to the first query. I answer your second question in the affirmative," and he also holds the same opinion as regards the right to vote for Congressmen, that a person pust have actually resided in this State six months, and in the county where the vote is offered thirty days next preceding

the election. The law then, plain in itself, has recrived a construction from the Attorney General which renders it clear and dis-tinct, but of what avail is law unless it

It can make no difference whether a person offering to vote be of one side or the other in this canvass. If he has no right to a voice, let his vote be rejected We have heard of men in this community who have encouraged emigrants to vote. To that class who would override the plain provisions of the law, we request their attention to the 6th section of article 2136 of the Election Law, and all such may rest assured that any infraction of that section will be strictly carried out if there is any "coercive

It is the duty of every citizen who has the right to vote to exercise that right and if they see fit they may vote for Jeff Davis or McClellan, and their right to vote shall be defended by every loyal citizen, but there shall be no fraudulent voting if patriotic citizens can prevent it.

power" in the laws of this State.

Let men of every shade of political belief unite in preserving the purity of the ballot-box. Those who will not are criminal and unworthy the name or priv ilege of American citizens, and should be frowned down by the respectable of

of November, we caution every Union day touch not strong liquors; keep sober hold no political discussion; bring out every legitimate Union vote. Challenge of legality. Be cautious, but be firm. Our enemies are desperate. There are those among them who would not hesitate to bring about civil war in our midst, and a single blow might lead to terrible results. The peace of the State in a great raeasure depends on the action of each Union man. Therefore we say again, be cautious, but stand for your rights, and preserve the purity of the ballot box, and keep the peace.

THE PLOT OF THE CONSPIRATORS.—There is no doubt a plot among the Copperbeads of the East to inaugurate civil war, immediately on the reelection of President Lincoln. Frank Secessionists admit and expect it, and will be disappointed if it does not follow. The pre text in justification of this second rebellion is to be found in the "illegal and fraudulent election of Lincoln through the soldier vote." No matter what the pretext, so long as it is only an excuse. Poor or good, there is a large number of the so-called Democratic party, in the Free States, who no doubt are ready to enter into open rebellion, and commence war in earnest. Desperate men use desare now as crazy as the Secessionists were in 1860. Lincoln is to be re-elected, and successful without the aid of a single soldier's vote. But will this fact alter or change the resolve of these Copperhead guerrillas. Not the least in our opinion. We cannot believe that the Copperhead leaders of the North are more principled men, or more disposed to abide the result of the ballot box in 1864 than the Secessionists in 1860 .-We believe they are more wicked and determined than ever the Secessionists were. But there is one great distinctive difference in the two people. The mass of the Copperheads of the North have have, but the majority of the rank and would fight for the Government. The question would come home to such men The interest of property, the love of life, and the general anarchy which would follow, would appear too formidable to their nerves and courage. But no doubt quite an open conspiracy can be organized from the Copperhead ranks. It may be organized. But f the worst comes, vention, said : we believe the great loyal mass of the North will be ready to meet it. It may be better that it should come. It may be necessary to permanent peace. The guerrillas of the North deserve extermination, and they may be their own instruments in inaugurating a war which will accomplish it, We believe that the South was made mad for its own destruction, and it may be the same passions and wickedness will cause their allies to commit suicide. Thousands of them are ripe for war and murder, and stand ready to light the torch of incendiarism in the cities of the North, But ne loyal man will be intimidated or driven from his support to the Government. The people are ready to vote right and

fight right. Let the devils rush on to destruction !- [Appeal. PROSPECTUS. - We have received the prospectus of the Occidental, a weekly newspaper to be published in San Francisco by Flaven & Co., and to be edited by Zach Montgomery, who notifies the world and "the rest of mankind," that the paper will be independent of all parties and cliques, but will give the private opinions of the editor on all questions of a political nature. We suppose by that that the Occidental will come about as near being the organ of the Confederacy as a paper can be on this coast. The first number will be issued on Saturday next.

A Cool OPERATION .- On Thursday afternoon of last week, two daring guerrillas entered a cabin on Canon Creck, near Onion Valley, in this county, while the owners were absent: After searching the house, and finding no articles of value. they concluded to weit until the owners (2 miners) should return home from their work. When the miners entered their cabin, they were confronted by the guerrillas, who, with pistols in theinhands, demanded what little loose change they had upon their persons. The demand was complied with, and the robbers received about \$150 00 in dust. One of the robbers then took a pistol in each hand, and leveled it at them, while the other tied them hand and foot; which feat being accomplished, the gentlemen kindled a fire, cooked and eat their suppers. After finishing their meals, and smoking a pipe, they untied the bandage of one of the men, and told them that if they left the house within two days, they would be killed. The threat, however, had no effect, and the men soon gave the alarm, but no trace of the robbers could be found trad and attacage there will he

There are a large num, ber of ferries on the route, and all of them charge \$1 50 for crossing a man and horse. He says that there are a large number of men there, out of employment, and are "strapped;" many of of employment, and are "strapped;" many of them are willing to work for their board. He advises his friends in Plumas, who can make two District Court of the Second Judicial District, in and for the country of Plumas, State aforesaid, on a dollars per day, to stay here; or if they want to try a new country, go anywhere except there. From his account, it is anything but a rich mining locality. Billman also states that he saw Van-Reed, at Walla Walla, Van was reported to have been killed at Humbolt, by a party of men who found stolen horses in his possession. He was shot in three places, and left for dead, and lay for three days without food or water, when he was picked up by an emigrant train and taken by them to Oregon.

SANITARY AGENT YORUN .- Some time since we exposed the rescality of a preacher, named Yokum, a resident of Butte county, who attempted to palm himself off as an Agent of the Sanitary Commission. Since that time, Yokum has been to Salt Lake, and on his return from there, was elected the Captain of a company of emigrants, composed of about seventy men. The company, with the exception of five or six men. were all secessionists-plain, out-spoken friend of Jeff. Davis. One of the Union men, who was a member of the company, and is about sixty years of age, is now a resident of this valley, and from him we learn that Yokum was loud-mouthed in his praise of Jeff. Davis, and abusive of Union mer, and that on several occasions the war on poles were raised with the intention, as Yokum said, of hanging the Union men in the company. Twice was our informant told-by this same Yokum—to prepare to be hung; but through the in-fluence of some of the members of the company, Yokum's designs were frustrated. Yokum told them they—the Union men-were not fit to live. and if he could have his way, he would hang every one of them, and abused them in every possible manner. He told the members of the campany that civil war would probably break out in this State, &c. This man Yokum (if he can be called a man) is a leading member of the Democratic party in California; was a member of their State Central Committee; and a few months since attempted to palm himself off, upon the Union men in this county, as an Agent of Father Bellows. We warn Union men to watch this man. Keep an eye on him, for he means mischief. If Yokum can be taken as a type of the Democratic party in ship reste, they all need watching.

# ELECTRICITY REMEDIAL AGENT!

When it was promulgated that disease could be entirely eradicated from the system without the use of poisonous drugs, the unthinking or those who did not look deeply into cause and effect, scouted the assertion is chimerical, and addreed strong eridence of its after impossibility. Long articles, replete with arguments, seemingly unanswerable, of the position that only through the digestive system could the blood be purged of the accumulation of the pois, one which constitute disease. A great cry went up from the interested in the continued supremacy of the old system of one poison to cure another, that electricity as a curative agent, had been tried and proved to be of but little if any value—thinking poor souls, the wold of science stood at the same point it occupied one linadred years ago. They were wrong, while those old fugies were content if they cared one in every five patients, there were those who were searching into the science of electricity, and finally sit was discovered that the flouble was in, the in fruments used. From that time to the present, improvements have rapidly advanced, until every disease in the calalogue of human ills have been either cured altogether, or checked so as to enable the sufferer to seek changes of climate which ultimately perform a perfect cure. Diseases hitherto considered incurable, have been cured, and those diseases which took months, and even years, to cure by medical process, are now cured in a few weeks; relieved by the Improved Instruments of Dr. J. H. Josselvin, Resident Physician at the Electropathic lastitude of the process of the electropathic assetm. From early morn till late at night his instrument is energied, immatring health and strength to all who have to degace that have been related by the action was a system. From early morn till late at night his instrument or engaged, imparting health and strength to all who have he good fortune to obtain his services.

The charges, too, are not as heavy as by the old system;

the good fortune to obtain his services.

The charges, too, are not as heavy as by the old system; besides, there is no medicine to pay for. Let alone the unpleasantness of swallowing the nauseous stuff. During the time the Institute has been in oceration, there has been more benefit to the human family derived from the system, than from all other systems combined, during the same period. Among the most troublesome diseases to which Californians have been exposed, is RHETMATISM. None have given the honorable practitioner more trouble for elieve and none have pretended to cure (if we except known empries) permanently. But this subtle disease gives, way before the Flectronathic system in a very short time, enabling the suffered in our able. We mention Rheumatism because of its abundance, but we could enmerate many many other diseases full as troublesome, and some far more fatal in their results. There is one more trouble-ome disease or disorder, which stands upon the calendar, which is fatal to both body and mind. It is one about which there has been more deception used by empirica, because it is of a private nature.

We allude to sexual debility, paraded by quacks in the journals of the day, a trouble which never was cured by medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of ones. The poor victim is taking medicines and paying for them until his last dollar is gone, and then as soon as he undertakes to

venting a relapse.

We dwell upon this disease because it is one about which there has been more deception used than all others put together. It is not necessary to enumerate all the diseases in the catalogue, for that would be occupying space to no jurpose. Every disease has been under treatment by this system, and there are none but have received benefit, eith-er in this State or at the Fast.

There are, at present very few Instruments in the world that can be depended on. A good Instrument costs very heavy, and cannot be purchased unless ordered, and there are very few who are able to manufacture them, for want of knowledge of the healing principle. The only instrument to be depended upon in this State is at the Electropathic Leathert.

Connected with this system are the renowned Electri Magnetic Baths Here let us caution the public against the numerous imposters in the bathing line. The pure magnetic bath is one of the most effective aids in the removal of disease from the system; but if given at the wrong time is likely to aggravate trouble, and cases have been known where the gatient has been injured so badly as o require months to remove the injury. Fersons in quest this bath should be careful not to apply to a place where of this bath should be careful not to apply to a piace where there is no physician to judge of the necessity of the reme-dy. In fact, the only place where they can be obtained, in all their purity, is at the Institute, where the Resident Physician will always be happy to examine and see that they are not unseasonably administered, and if not neces-sary, advise the requisite remedy.

sary, advise the requisite remedy.

To FEMALES, the Directors would say, Electropathy is particularly applicable to your delicate and fragile systems, and to the numerous troublesome and painful diseases to which you are liable; should you be irregular, a few treatments will restore the functions to the proper state without pain or inconvenience, should you be weak and enfectued, either general or local, this system imparts strength and vitality, making the recipient feel boyant and healthful, where before they were languid and unable to enjoy the pleasures of life. One great blessing connected with Electropathy is, it purifies the system so thoroughly that it beautifies the complexion, making the coarse and

freekled skin as pure and fair as possible, giving the patient a pure and healthful look.

To the nervous the Directors would say, that you can be entirely relieved from those dreadful feelings of evil fore-bodings, and your system strengthened so that nothing can distarb the current of your life reveral cases of insanity, arising from a disarrangement of the nervous system, have been entirely corred by this system. The Directors in making this statement, do it in the hope that it may be the means of awakening the public who have not studied in such things, to a sense of their duties, and if possible prevent those who have the care of the rising generation, from poisoning their young charges with vile drugs, thereby entailing upon them troubles, which in after life may cause them to curse their origin. Also, that those in need of renordial agents, may know where they can find them, without resorting to taking the thoasand and one poisonous nostrums that are continually being palmed off as sovereign remedies for all the life of humanity. Avoid them all—they are snares set to rob you, and to your bodily injury at the same time. The following is the list of cases which have been successfully teated by the Electropathic system, at the Institute, during the four firstycars of its establishment. The record is good, and challenges the admiration of the world.

B. F. WEILITS, Notary Public. This is to certify, that the undersigned, was troubled with dumb sque accompanied with rheumatism, very badly. My disease was taken in Wushoe. After having exhausted medicines without benefit, I applied to Dr. Josselyn at the distribution of the first day of November. After medicines without benefit, I applied to Dr. Josselyn at the Electropathic Institute, on the first day of November. After taking twenty treatments with his Improved Electropathic Instrument. I am perfectly cured, having been entirely relieved of all pain or inc invenience. I feel as strong as ever I did when in the best of health. I cheerfully recommend all afflicted to his care, as being the best physician I ever became acquainted with. One great advantage, he uses no medicines, but cures by a process which is perfectly natural. The time occupied in my case was thirteen days.

I sought the best medical aid in New York and Boston, and they all prenounced it dropsy. Hoping to retrieve my health I vi ited California in February last. I consulted the Resident Physician at the Electropathio Institute; and now, after five months of treatment, and waiting to see the effects, I am pronounced well by competent judges. It did not take but three months of treatment to care me, but I waited to see that it did not return. I feel perfectly assured from what I saw while under treatment, that Electricity, an applied at this Institute, will cure any disease to which the human family is liable.

Now, gentlemen, you can make what use you please of this certificate. With my thanks to the Resident Physician for his kind attention, I subscribe myself.

The advantages of electricity as a remedial agent, are universally admitted by the medical and scientific world. It requires, however, experienced skill to apply this remedy efficiently, and this skill of application is possessed in an eminent degree by Dr. J. H. Josselyn, of the San Fran Electropathic Institute. Particulars of his method of tice can be obtained by reference to his advertisemen mother column. The Doctor is well known to us cientific gentleman, and an ardent devotee to his profession le is no pretender but has conferred incalculable benefit or He is no pretender but has conserved incarcament belief to these who were so fortunate as to seck relief at his hands. The establishment is under the care of Dr. J. H. Josselyn, a physician who has no superior in the city. He has been in charge of the klectropathic In titute for several years, and has been uniformly successful in his treatment of the unmerous patients that have placed themselves under his charge. The electric treatment will cure many diseases that cannot be reached in any other mode. Dr. Josselyn gives his personal attention to all of his patients, and is always ready to give advice to those that may call upon him. His charges are very moderate; and we cannot do the sick a greater favor than to recommend them to call on him before placing themselves in charge of another.—Son Francisco Daily Journal.

A Certificate of Cure that Every One Should Read!! SAN FRANCISCO, AUGUST 1st, 1864.

Clay and Front Streets:

MESSES. CRANE & BRIGHAM, DRUGGISTS-Cor. of

GENTLEMEN :- I notice an advertisement in the newspapers, that you are the Agents for WATTS' NERVOUS ANTIDOTE, and being satisfied that there are many persons in this State that are suffering with RHEUMATISM, that would gladly avail ing with RHEUMATISM, that would gladly avail themselves of any preparation that would cure them, I thought it a duty I owed to suffering humanity, to make a statement of my case.

Some eight years since, while working upon a Rail Road, I strained my back severely, in attempting to lift a car wheel, being in a profuse perspiration at the time, and being compelled to go home without a coat, I took a severe cold, which eventually brought on the Rhemmatism which kent me ally brought on the Rheumatism which kept me confined to the house a large portion of the time for several years. I consulted most of the leading physicians in Sacramento, and in this city, visited the Warm Springs at Alameda, tried the various compounds that are advertised as cures for this terrible disease, but all to no purpose. My comterrible disease, but all to no purpose. My complaint, instead of getting better, grew worse, my left leg became partially paralyzed, the pains in the back and chest became so intense, that I often wished myself dead. I could not sleep more than two hours of a night, my appetite failed me, and I grew emaciated day after day, until finally, I made up my mind that my troubles would soon be over. While wabbling down Clay Street one day, in 1862, I met a gentleman with whom I was formerly acquainted. He enquired the nature of my disease, and upon being informed he stated that he had several years before been similarly affected in Washington, and that he had cured himself by the use of WATT'S NERVOUS ANTIDOTE. This was the first time that I had heard of the medicine, and I determined to give it a trial. I procured a shalf dozen bottles, and before I had used two of them I could sleep all night, my appetite had imthem I could sleep all night, my appetite had im-proved and I felt considerable easier. Encouraged by the apparent improvement, I determined to perby the apparent improvement, I determined to persevere in the use of it, as it was my only hope."—
I did so, and used it at intervals for two years. I found its effect slow but very sure, until new. I am entirely cured. I HAVE NOT HAD AN ATTACK OF RHEUMATISM FOR SIX MONTHS. My back or knieumanism for sia months. My back is as strong and as well as ever, my leg is as good as new, my appetite altogether too good for my pocket, and I am physically as strong as I was ten years ago, and free myself able to whip any man of

my size and age in the city.

Hoping that this plain statement of my sufferings and ultimate cure will fall under the eye of some one similarly afflicted that he may be benefitted by my experience.
I am, Gentleman, Your most obd't. NOTE.—The gentleman who wrote the above card does not wish his name to appear in print, but it will be given to those who wish to see him per-WATTS NERV OUS ANTIDOTE is for sale, Whole-sale, by CRANE & BRIGHAM, Cor. of Clay and Front Streets, San Francisco, and by respectable Druggists everywhere. 43-3m

WHY WI YOU BE SICK.

TT IS STRANGE THAT SO MANY PERSONS will suffer for years with diseases when they can be so readily cured.

DR. A. BALL, Has been established in San Francisco for ten years and during that period has not failed to effect a cure in a single case that he has undertaken.

DOCTOR BALL after a study of forty years has ucceeded in compounding a medicine of PURELY VEGETABLE PREPARATION, that will cure the worst cases of Gonorhoa, Gleet, Stritctures, Syphitis, Impotency. Skin Diseases, and all complains arising from immoral practices, in less time than by any other process known, without injury to the system.

DR. BALL'S LADIES' RELIEF FOR THE radical cure of weakness and irregularities to which so many ladies of the Pacific Coast are subject, owing principally to the peculiarities of the climate, is the best preparation yet discovered by the medical faculty, as thousands who have used it are prepared to testify.

DR. BALL IS NO QUACK. He is a regular educated Physician of forty years standing and has a diploma, which he will be pleased to exhibit to all those who may wish to examine it. Persons living at a distance, by sending a description of their complaint, can have this medicine put up in a package and forwarded by mail or express, in such a manner as not only to insure safety in transitu, but so that no one would suspect what

References will be sent by mail to those who wish to enquire as to the Doctor's ability before placing themselves in his charge.
